

WellSky Client Resource Center

Documentation such as **Release Notes** and **Quick Reference Cards** are now located in the [Client Resource Center](#). The most recent documentation can always be found in the **What's New** folder.

The WellSky Long-Term Care Client Resource Center is a new resource that not only houses our documentation but provides a portal for logging support tickets to the WellSky Long-Term Care team. You can also find video recordings of User Group and Innovators meetings, and so much more.

If you do not yet have an account with the Client Resource Center, select the **Request an Account** link on the log-in screen.
